

AirPro Control Unit ACU.53

ODOR COUNTERACTANT DELIVERY EQUIPMENT

Ecolo's ACU.53 system integrates easy to use electronics and a durable oilless compressor into one sleek and professional package. The ACU.53 system is specially designed to control multiple zones either with **air mist nozzles, vapor units or spray stations** in different locations. This allows the AirSolution™ or XStreme Vapor droplets produced by the system to float and disperse throughout the corners of the odor treatment areas for uniform coverage and intensity.

ACU.53 system is ideal to use in:

- Kitchen Exhaust
- Loading Docks
- HVAC Systems
- Recycling Plants
- Industrial Facilities
- Storage Areas
- Exhaust Stacks
- Other Odorous Areas

Features and Benefits:

- **All-in-one Controller Design** – compressor and programmable controller integrated in one clean and polished system.
- **Adjustable Programming for Volume Control** – Repeat cycle timers with up to 10 minute intervals and sprays duration of up to 10 seconds.
- **Large Capacity Compressor** - Great for use in a large facility where the connection between the control unit and spray unit may be a long distance apart.
- **Tamper Proof** – lockable enclosure and internally mounted components prevent tampering.
- **Easy to Install** – quickly mounts to a wall or tank.

Air Mist Nozzle with Flow Control Specifications:

Nozzle Description:

Siphon/Gravity-Fed Spray Nozzle
 Spray Distance: up to 8.5ft
 Solution Consumption Range:
 0.24-0.59 GPH (Subject to Gravity Head/
 Siphon Height)
 Air Pressure: up to 60 PSI
 Part Number: 30-NOZ-0400

XStreme™ Vapor Unit Specifications:

Depth 15.24 cm/6"
 Width 15.24 cm/6"
 Height 50.8 cm/20"
 Weight 4.13 kg/9 lb
 Capacity: 1 Litre/1.1 gal
 18 gauge steel cabinet

Spray Station SU-20 Specifications:

Depth 25.4cm/10"
 Width 34.29cm/13.25"
 Height 49.53cm/19.5"
 Weight 9.07kg/20lb
 Capacity 20 Litres
 Part Number: 10-ASU-0800

The ACU.53 can be used to dispense solutions from floor mounted reservoir containers (eg. 55 gal drum), or up to 6 spray stations / 9 vapor stations. It offers flexibility of controlling multiple zones either with air mist nozzles, vapor units or spray stations.

Product Specifications:

Dimensions: 50.xx45.7x30.5 cm/20"x18"x12"
 Weight: 18 kg /40lb
 Electrical: 220V - 1Ph - 50Hz
