

AirSolution™ 26

Ideal for eliminating odors from kitchen exhaust

AirSolution™ 26 is a concentrated non-toxic liquid odor counteractant specifically designed for eliminating odors from cooking exhausts at restaurants and food processing facilities.

AirSolution™ 26 Clean Air is a water soluble liquid, with a distinct scent, used to neutralize and completely eliminate various cooking and food processing odors arising from a multitude of sources. The basis of AirSolution is a complex blend of essential oil and odoriferous organic compounds found in plants. AirSolution also contains surfactant, isopropyl alcohol, dyes (product class: FD&C color) and water. When the diluted product is misted in contact with odorous air, it effectively reduces the concentration and intensity of airborne odors by converting odor molecules into non-volatile compounds.

The major composition of AirSolution™ 26 Clean Air has been tested through full toxicology studies (eye, oral, inhalation and dermal irritation/corrosion). AirSolution™ 26 is safe to handle and use around people in non-food areas of food processing facilities.

Product Specification on AirSolution Concentrate

Name: AirSolution #26 Clean Air
Properties: Transparent liquid
Color: Green
Odor: notes of lemon, mint, and cherry
Odor Attributes: refreshing and mild
Gravity at 20°C: 0.935-0.950
pH at 25°C: 5.5-7.0

Instructions for use

Dilution Range: 4:1 to 10:1 for kitchen exhaust and site specific recommendations provided for food processing plants.

Application Method: Atomization / Misting

- Mix product with clean potable water before use.
- Mixed product should be used within 30 days for optimal performance.
- Guidelines for calculating chemical usage are estimates only. Actual usage is affected by odor concentration, temperature, particulate levels, etc.

Odor Neutralizer Concentrated Liquid Air-Contact Technology Safe, Immediate & Long-lasting

Applications

- Kitchen Exhaust
- Food Processing Plants

Types of Odors Treated

- Ammonia
- Amines
- Mercaptans
- Fatty acid

Ordering Information: AirSolution™ 26 Concentrate

Code	Size	Wt.	Dimensions
50-AIR-0880	20 L	21.8 kg	23 x 28 x 38 cm
	5.28 gal	48 lbs.	9" x 11" x 15"

TDG Classification: Flammable liquid class 3, packing group III
