

Ecolo's GelTech® System uses AirSolution™ technology, a complex proprietary blend of powerful odor reactants that work through the process of odor counteraction to reduce odor complaints. During this counteraction process, GelTech® reacts with the odorous molecules and instantly begins to eliminate nuisance odors. Unlike masking agents or perfumes, GelTech® converts odorous molecules into new and larger molecules with lower vapor pressure to reduce the odor intensity.

The 'pins' in the GelTech® cartridges gives the gel increased stability which allows it to be used on its side or upside down if needed. When used with the AirStreme® fan dispenser, the pins also allow for additional air flow to maximize the odor neutralizing efficacy.

Long-Lasting and Uniform Output Odor Control

GelTech® cartridges are super concentrated with over 90% active oil ingredients. It is spill proof with excellent clarity, heat, and cold stability. The gel is phthalate-free and is VOC-compliant. The cartridge provides uniform output over its life span.

ODOR NEUTRALIZER

LONG-LASTING

SAFE TO HANDLE
